

OPTOMETRYGIVINGSIGHT

Transforming lives through the gift of vision

Dear PEN Doctors and Staff,

Over 670 million people in developing countries around the world suffer from blindness and impaired vision due to uncorrected refractive error. Optometry Giving Sight is the only global fundraising initiative that specifically targets the solution – providing quality primary eye care.

This is made possible through the funding of programs which offer not only eye exams and glasses in countries with little or no access to them, but also the establishment of infrastructure and human resources required for sustainable, quality vision care.

There is no one better prepared to take on this challenge than the global Optometric community... and this begins with you.

Primary Eyecare Network recognizes the positive impact of this philanthropy and, with 85% of every dollar going directly to support programs that GIVE SIGHT to those in need, **we strongly encourage your contributions.**

"Optometry Giving Sight is a wonderful organization that truly helps people with the gift of sight. They are very transparent and put everything they can back into helping people. This is perfect for PEN doctors to get involved in. I encourage all Optometrists to consider the impact they could have on so many others by supporting Optometry Giving Sight."

~ Eric White, O.D.
